Purpose Statement

ADHD is the most common mental diagnosis in children and is characterized by inattention, hyperactivity, and impulsivity. It is essential for clinicians to be knowledgeable about the presentation and diagnosis of ADHD, and to be clear in their outcomes when choosing among available and emerging therapeutic options.

Target Audience

Primary Care Physicians, Pediatricians, Pediatric Specialists, Pediatric Sub-specialists, Pediatric Nurses, Pediatric Pharmacists.

Learning Objectives:

At the conclusion of this program, participants should be able to:

- Discuss what is known about the etiology of ADHD
- Elaborate on the differential diagnosis of ADHD
- Describe modes of treatment of ADHD and their advantages and disadvantages

Accreditation Information

Medical Education Solutions Group (MESG) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

MESG designates this educational activity for a maximum of *1 AMA PRA Category 1 Credit™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure Policy

As a provider accredited by the Accreditation Council for Continuing Medical Education (ACCME), Medical Education Solutions Group requires written, signed disclosure of the existence of relevant financial interests or relationships with commercial interest within the last 12 months from any individual in a position to control the content of a CME activity sponsored by MESG. Individuals who refuse to disclose relevant financial relationships will be disqualified from all aspects of this CME activity.
